## Simultaneous Policy Adopter

- **Simultaneous.** Do you like living in a world where governments listen more to big business and financial markets than their own citizens? Where countries compete in cutting the rights of their people to be more attractive to investors? Or do you want to see a **policy** package introduced to protect your rights and the environment? Governments are scared of losing investment and jobs to other countries. But taking **simultaneous** action will remove that threat, change the power balance and put the people back in control.
- **Policy.** Are you happy that global rules are presently set behind closed doors? Or do you want to know what is going on and the right to have your say? You can join people around the world in developing and approving the **Simultaneous Policy**.
- **Adopter.** Are you frustrated with politicians who are sucked into competing with other countries for investment and jobs, selling you out in the process? You can become an **SPAdopter** by pledging to vote for any politician, within reason, who promises to implement the **Simultaneous Policy**. Together we can swing elections to bring in the policies that will take back the world. There is no charge. Just adopt.
